## JAL | IN BRIEF

Incorporated in the year 1988, Jindal Aluminium Limited is a ₹49 300 Billion (US\$ 100) mnc company. We are the leading Aluminium Extrusion and Flat Rolled Products manufacturing companies in India. We are leader to have monopolized the use of aluminium in the country through our excellent quality and quick delivery.

Presently with 11 aluminium extrusion presses we have an installed capacity of 1,20,000 MT/yr of aluminium extrusions apart from 40,000 MT/yr production capacity of aluminium flat rolled products (FRP) which is progressing each year to touch new heights. We offer a wide range of aluminium alloys and varieties of products that serve various segments such as Architectural, Electrical, Electronics, Industrial, Solar, Transport, Building, Insulation, Packaging etc.

Meeting almost 95% of country's total demand of aluminium extrusions, we have produced nearly 10,000 MT of aluminium extrusions in the year 2019-20. Similarly, we have produced more than 70,000 MT of aluminium flat rolled products in the year 2019-20 which is approx. 32% of the country's demand for aluminium flat rolled products.

We are supplying to almost 40 different countries including US and European countries. We are focused for boosting our exports in the future by concentrating on customized requirement, alloy and through continuous process improvements, resulting us to partner in the progress of our esteemed customers.

# Case Studies – Toshiba India

## THE ASK

The objective of Toshiba India's SEO strategy is to improve the visibility and search engine rankings of our website in order to reach potential customers who are actively searching for electronic products and services in India.

## THE ANSWER

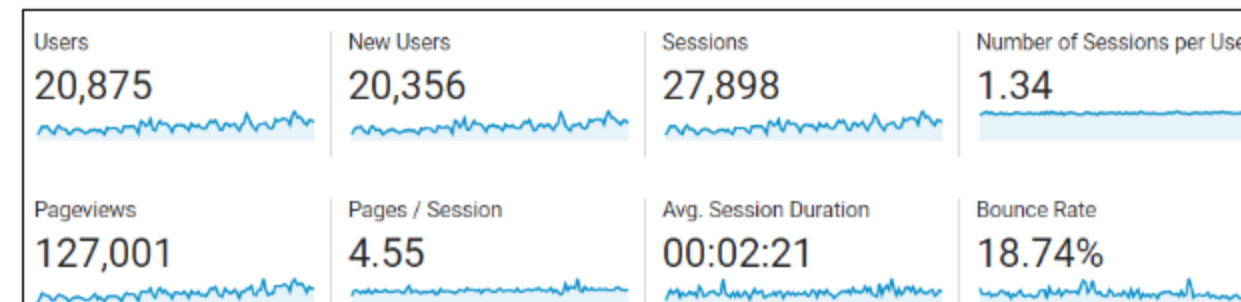

As an agency in we first audited the website, we realized it needs a lots of SEO work. Firstly, we identified 50+ keywords with a high monthly search volume. Based on the keywords identified, we mapped target landing pages to be created and optimized.

### Here's a quick list of what we did afterwards:

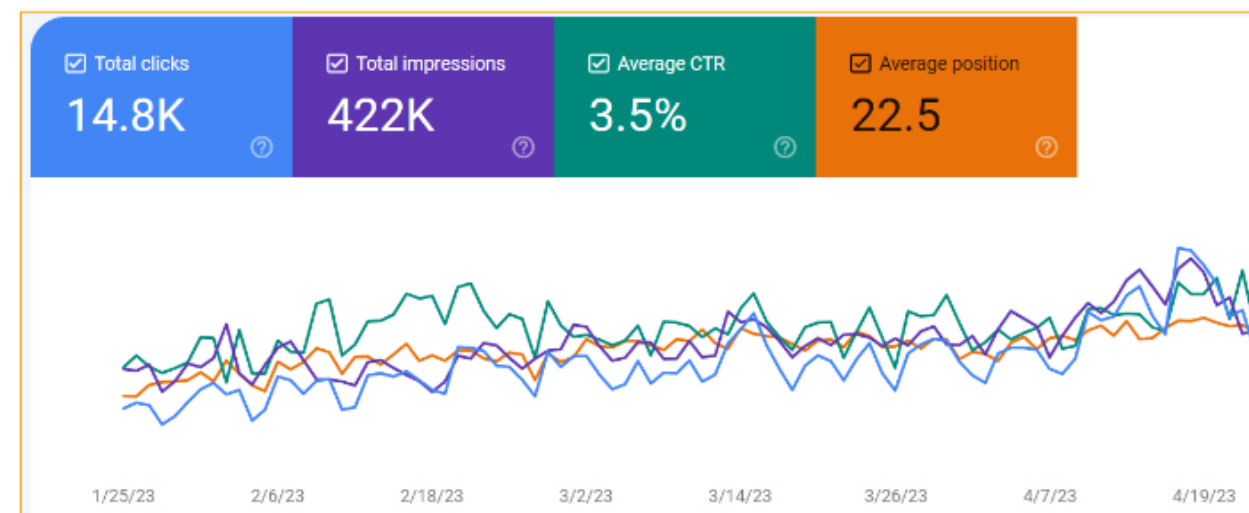

- Focused on relevance.
- Researched more relevant and high search volume keywords
- Changed page titles according to our target keywords to make them more relevant.
- Created engaging Meta Descriptions to improve clicks and impressions
- Included keywords in the heading and sub headings (H1, H2)
- Instead of just using the brand name, we used relevant keywords as a part of anchor text.

# Case Studies – Praanavaidya

## THE ASK

When we received the website it was not optimized for SEO, keywords were not distributed well across the page and content. We had 40 high search volume keywords to rank but we don't have relevant pages to target.

## THE ANSWER

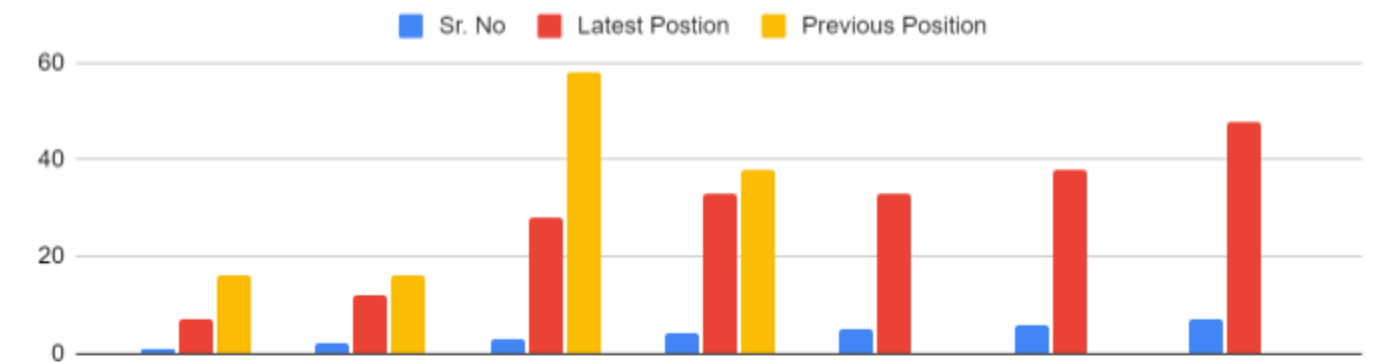

PraanaVaidya - The community of doctors who started this venture with a passion for the field of medicine. "Praana" in Sanskrit means Life. And "Vaidya" is someone who is well versed in the art of healing. They are a team of doctors with specializations in both Ayurveda and Allopathy.

### Here's a quick list of what we did afterwards:

- Our focus was on enhancing relevance in our SEO strategy. We researched relevant and high-search-volume keywords and incorporated them into our page titles to improve relevance. To enhance engagement and impressions, we created compelling Meta Descriptions. We also added relevant keywords to our headings and subheadings (Tags) and used them in anchor texts instead of just relying on the brand name.
